

**ASQ**  
AMERICAN SOCIETY  
FOR QUALITY™

## Greater Fort Worth

**Section 1416**

### Vision

To be the area's leading resource and recognized champion of matters related to quality.

### Mission

To serve the needs of our membership and the community by providing a local forum for information exchange, professional support and continuous learning.

# Tonight's Program

- ✦ **Topic: "Hoshin Kanri 10-Step Model"**
  - ◆ Hoshin Kanri (Planning), is a strategy planning and execution framework that has been used to tremendous effect by some of the world's best-performing organizations.
  - ◆ Hoshin Kanri allows organizations to consistently achieve strategic goals and results that matter. Jason will highlight a 10-step model that introduces HK Planning and gets you excited about using it.
- ✦ **Speaker: Jason Farley, Field Engineer, TMAC El Paso**
  - ◆ Extensive experience in program and operations management, leadership and teaching.
  - ◆ Recent engagements include an aerospace Lean project in the Lockheed Martin Mentor Protégé Programs & construction project partnering facilitation for the Univ of Texas campuses.
  - ◆ Jason is a certified Project Management Professional and Black Belt.
  - ◆ He is a contributor to "How to Implement Lean Manufacturing".

3

# Speaker Feedback

**PDM Speaker Feedback - Table Guide**

Please consider the following content during the presentation.  
The Feedback App will be asking the same questions in a slightly different format.

ASQ Section 1416 - Speaker Feedback	Speaker	Type	No.	Yes	No		
1. The speaker shared important information for the session and met their goals.			1	2	3	4	5
2. The speaker was well prepared for the session and did a good job.			1	2	3	4	5
3. I would like more information on this topic. (If yes, at what level?)			1	2	3	4	5
4. Everything what suggestions might you have to make this session even better next time?							

The Bottom Line: Personal: \_\_\_\_\_  
Session: \_\_\_\_\_  
Date: \_\_\_\_\_

10

# General Tutorial

- ✦ Topic: **“Agile Lean Six Sigma”**
  - ◆ Companies have demonstrated that with as little as one day of Six Sigma training, employees can generate measurable results.
  - ◆ This is a radical change from the 2-4 weeks GB / BB trainings followed by months for Six Sigma projects to deliver results.
  - ◆ By hacking Six Sigma...
    - simplifying, streamlining, and optimizing the methods and tools...
    - you can maximize results with minimal investment.
- ✦ Speaker: **Jay Arthur, Creator / Founder, QI Macros**
  - ◆ Teaches people how to turn data into dollars using Microsoft Excel. Helped a healthcare system reduce rejected claims by \$24 million.
  - ◆ Author of Lean Six Sigma Demystified & Lean Six Sigma for Hospitals.
  - ◆ Created QI Macros Lean Six Sigma Software for Excel.

11
