Program Topic: “Failures are Stepping Stones...to Success!”

In our formative years, few of us were trained to deal with failure. In fact, many of us were taught to do whatever it takes to avoid failing. Can you relate?

In this presentation, we'll discuss the 7 Key Reasons that people fail and hear several inspiring examples of how some of history's most successful people achieved their breakthroughs. If Thomas Edison had not persevered through more than 1,000 ways a light bulb would not work, we might still be using lanterns and candles!

Speaker: Stan Renteria, Senior Quality Systems Manager at Medtronic PLC

- Stan's career has been focused on the technical aspects of manufacturing and quality, having worked in the automotive, aerospace, telecommunications, and medical device industries. Stan is responsible for a multi-site Quality System Configuration Management team which executes product and QMS document changes for Medtronic businesses located in six U.S. states.
- For more than two decades, Stan has actively cultivated his interest in leadership, self-improvement, and people development. He takes the opportunity to sharpen and practice these 'soft skills' daily in his effort to add value to people around him.
- Stan holds CSSGB and CQIA certifications.

- Medtronic PLC, a medical technology company with its corporate headquarters located in Dublin, Ireland and operational headquarters in Minneapolis, Minnesota.
-

Tutorial: “Ft Worth Engineering and Science Fair”

We'll start with an overview of the ASQ Ft Worth Science Fair judging / selection process. This will include recognition of the 18 judges (web based and in person at UTA).

Then the Top 3 High School winners take a few minutes to provide some key aspects of their project and the lessons learned during the project. Details of their project actions will be displayed on their storyboards, available for viewing and interactions with the students before 6:00 meeting start time and during mealtime.

Speaker: **Michele Locke**, Section Science Fair Coordinator

Recognition: Cumulative Certifications

Recognizing all members with 3 or more certifications with certificate awards to levels 3, 5 and 7 earned in 2022.

Prepaid Meal Purchase via Web:

We have full capability to accept pre-paid meals and/or plan a vegetarian meal via the web using the ASQ ePly reservation system, which costs \$1.75 per person in fees. Upon returning to DOCC we are being charged a room use fee and must cover the cost of them by the attendees. With 50 attending, the distributed cost is about \$6.00 per person.

For Diamond Oaks planning, and to manage costs, we **must have registrations for all attendees.** Reservations for meals must be completed **by NOON on Tuesday** to order adequate food. The standard cost of the meal is \$30.00. However, reservations by deadline above will be discounted to \$25.00 which includes the \$6.00 seat fee.

If unable to join the meeting, and the meal reservation becomes a “no-show”, the Section will honor the reservation for the following DOCC month. We do not want to penalize you for unknown business needs.

Reservation Link: [CLICK HERE](#) – it will look a bit different and you can process multiple person meals in one transaction.

Long form: <https://app.memberplanet.com/#/event/asqgreaterfortworthsectioncommittee/aprilpdmeeting>
Look for “Buy Tickets” on the upper right side of the page. **No Login Needed**
