Program Topic: “Progressive Machine: Innovators to Lean Systems”

The presentation summarizes 10 significant innovations with the associated innovators to Lean Systems over the past 200+ years. It challenges some of the commonly held beliefs about Lean Systems. The focus audience is anyone (leaders / followers) undergoing or thinking about undergoing a Lean Journey so that they can see that Lean is not a fad.

The Progressive Machine is a presentation by Stephen Weller on the evolution of production and service methods into what has come to be called Lean.

Stephen will focus on the people that have influenced today's best practices by highlighting their contributions since the Industrial Revolution.

This high-level discussion will give participants an overview of Lean concepts and their origins, with the key takeaway being:

- improved understanding that can be implemented in any production or service system to improve results across the board.

Discussion points:

- What were the common characteristics of each of the Lean innovators?
- Why do Lean Attempts fail?
- What are the differences between the Lean Management System and the Lean Production System.

By the end of the session, people will be introduced to 10 innovations and the innovators; the conditions that helped to evolve Lean via the Toyota Production System; and evidence of success in the United States.

Speaker: **Stephen Weller**, Operations Consultant, Baylor Scott & White Med Ctr.

- An effective leader in the area of Lean deployment, Stephen Weller is the author of “The Progressive Machine”.
- Stephen has been a facility Lean manager for two manufacturing organizations. He has approximately 10 years-experience deploying Lean techniques in the healthcare environment in which he has worked with over 50 healthcare facilities.

- Throughout his career, Stephen has developed nearly 40 training programs addressing topics that include Lean, Measurement Systems Analysis, and Change Management. He has spoken at several conferences on the subject of Lean.
- He was a contributor to the book “Orthopedics and Spine: Innovative Strategies for Service Line Success” by Marshall K. Steele, MD and Judy E. Jones, MS.
- Stephen currently serves as the Operations Consultant at the Baylor Scott and White Medical Center in McKinney, Texas. “The Progressive Machine” will be Stephen’s first book as a solo author.
- Stephen has MS in both Business Administration and Management. He is married to his wife, Kayti, and has four children.

Tutorial 1 (General): “myASQ... Section 1416 Community”

The Ft Worth Section has launched its myASQ Community website, dedicated to the members of Section 1416. It includes the ability to network more easily with the quality practitioners in the area and potentially the 600+ members of the Section and the 2000 in the DFW area.

This tutorial will explore the Community site and your opportunities to obtain information and interact with others via:

- Interactive Discussions with your peers and SMEs
- Local Events sponsored by the Section and/or DFW area ones
- Befriend specific members to maintain ongoing contact information
- Files of past PD Meetings / Roundup presentations
- Resources – to provide information you want to improve your breadth of skills
- BONUS: Preview Division sites for what they have to offer

Speaker: **Ron Moeller**, Section Chair, Retired (Bell)

- Bio to be posted

Tutorial 2 (Special): “WOW”

Gain the skills to enhance your leadership, develop your team, grow your business, and get your life back.... All faster than you thought possible.

	<p>WOW – Discover the secret sauce to employee engagement and loyalty. Learn how to define and clarify why you exist – your purpose--and where you are going – your vision. Leaders will also learn an engaging way to communicate their purpose and their vision to their people.</p>
---	---

This is part 3 of 4 in a part series on the principles of Bobby Albert’s True North Business Leadership. This series will make a positive impact on your business and your life! You’ll leave with a fresh perspective, new ideas, and specific next steps to take in your leadership journey.

Speaker: **Bobby Albert**, President of Values-Driven Leadership LLC

- Bobby led the Albert Companies to unprecedented growth—and he did so during one of the most challenging economic periods of our lifetime. His unique leadership, coupled with an unending desire to learn, enabled this CEO and his team to grow revenues, profits by 500 percent between 2005 and 2011, the year he sold his business to a publicly traded company.
- Using a values-driven approach, Bobby created a unique and special workplace culture. The Best 100 Companies to Work for in Texas awarded their coveted designation to the Albert team for the first two years they applied for consideration. A life-long entrepreneur, Bobby has started up twelve different businesses and acquired nine others. His approach to business has been to value people, seek wisdom, embrace humility, and never stop learning.
- He is currently president of Values-Driven Leadership, LLC. His passion is to help other leaders build inspiring workplace cultures through values-driven leadership. Bobby writes, speaks, and consults with key leaders to share the principles and practices that he used to grow his company from five employees to an organization of more than 150 team members.
- As a regular contributor on Fox News Radio, Bobby provides insight on leadership, workplace culture, and employee engagement.
- Bobby’s first book, Principled Profits - Outward Success Is an Inside Job, reveals the time-tested principles that enabled his success. His second book, True North Business, is a leader’s guide to extraordinary growth and impact.
- A cycling enthusiast, Bobby has logged almost 100,000 miles on his road bike. He and his wife, Susan live in north Texas and have three married sons and eight grandchildren.
