Quality Cruise for
Professional
Development

HD&L and ASQ Greater Fort Worth Section | 416 Quality Cruise for Professional Development

Monday, October 27, 2014

10-12 Team Building Activity (open to all cruisers) – John Breckline

Learn about team building and meet your fellow ASQ cruisers as you and your team explore and learn how to navigate the Navigator of the Sea.

1-3 Lifecycle Kaizen—John Dilorio

CI tools that enhance product lifecycle will be discussed including PDCA cycle, lifecycle charts, function curves, and rise/run trends. CPI will be compared to other cost/customer benchmarks, Return on investment (ROI), Quality/Reliability/Safety (QRS) requirements, with a Lean Six Sigma (LSS) emphasis.

3-5 Workshop: Lose the Carrot and the Stick: Substitute Leadership—Marilyn Monda

Motivate, achieve results and advance your corporate culture. Understand how to live your leadership legacy while supporting extrinsic motivation for you and your team in this highly interactive workshop.

Friday, October 31, 2014

10-12 Change Leaders—What Does it Mean to Lead Change—Wanda Sturm

This active look at change leadership will take you around the ship while learning key change management principles along the way.

1-3 Deming's Profound Knowledge for Leadership—Marilyn Monda

Are you (or is your business) a natural in implementing the theory behind Deming's principles? Find out as we look at Deming's theory of profound knowledge through the lens of businesses and famous leaders who naturally practiced the principles.

3-5 Workshop: Conflict Management Principles and Personal Application—David Winney

Saturday, November 1, 2014

10-12 Quality Forum—Hot topics in your quality world—Wanda Sturm, John Breckline, David Winney, Marilyn Monda

Sit down with HD&L member-leaders for an off-the-cuff discussion of your quality issues and questions.

1-3 Creative Problem Solving: A Six Step Model

This problem-solving model will help you to improve services and operations to make them better, faster and cheaper when there are not pure engineering solutions, the problem is vague and/or the possibilities are not obvious or potentially unlimited. We'll have fun learning the model and practicing it in some challenging situations.

3-5 Workshop: Coaching and Mentoring—A common element; Listening — Wanda Sturm

Discover what it means to be a coach; what it means to be a mentor ... then focus on one skill – Listening. Build listening skills and learn how to apply them as a coach and a mentor.
